## Engine MY2005/2006 Port Truck Replacement Program

**FOR A LIMITED TIME:  
Replace your Port Truck!!  
(trucks with engine model years 2005 or 2006 only)**

**Applications accepted until  
September 28, 2012 (5:00pm)**

The Bay Area Air Quality Management District (BAAQMD) is accepting applications to replace drayage (port) trucks that have engines manufactured in 2005 or 2006. The District will provide \$10,000 grants for selected truck replacement projects, on a first-come, first-served basis, with priority to Alameda County trucks. This program is not for retrofit filters. **Applications must be submitted by 9/28/12, and all replacement trucks funded by this program must be delivered and inspected by the District by 12/31/2012.**

**Funding is limited to trucks that:**

- Are Class 8 (GVWR 33,001lbs or greater) drayage trucks
- Travel an average of 20,000 miles per year
- Have an engine that was manufactured in 2005 or 2006
- Are currently registered with CA DMV in Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, or southern Solano or Sonoma counties
- Transport bulk or containerized cargo to or from Bay Area ports or rail yards

Applications available online (print and submit by hand or mail) at [www.baaqmd.gov/goods](http://www.baaqmd.gov/goods), or visit OT411 Trucker Information Center (Maritime Ave/Alaska Rd, Port of Oakland) Fridays in September from 10am to 4pm.

Only complete applications will be accepted - **submit with your application:**

- Current DMV registration
- Current Proof of Insurance
- Odometer or mileage documentation sufficient to calculate a full 2 years of mileage for the truck. See Program Factsheet or website for full details. Typical documentation includes maintenance/repair records, truck inspections, fuel tax records, daily mileage/driver logs, daily manifest or anything that shows odometer and date.

**For more information:**

- Visit OT411 Trucker Information Center – Maritime Ave/Alaska Rd, Port of Oakland, Fridays in September from 10am to 4pm
